HANSEN BUSH CHERRIES

EASY TO GROW — SURE TO PRODUCE

Highly Productive — Good Flavor — Hardy Everywhere

Hansen Bush Cherries are the result of over 30 years of untiring selection work by the great plant wizard, Prof. N. E. Hansen of South Dakota State College at Brookings

Bush Cherries Are Fruitful

He has developed what was formerly the rather small, little known western South Dakota Sand Cherry, to a fruit of large size, desirable taste, good habits, wonderful bearing and beautiful in flower, fruit and foliage.

The fruit is good to eat from the bush and makes a wonderful jam. The juice makes fine jelly and a not to be forgotten cordial which won't keep long.

Though the fruit of this cherry much resembles a plum in size and shape, the plant itself grows in a bush like shape, branching and bearing from the ground up, usually bearing the year after planting. It always retains its dwarf stature which is of fine value for planting in the garden as it doesn't take up near the room of an ordinary plum tree and yet often bears more. The bushes should be planted 2 to 4 feet apart, in rows 4 to 6 feet apart about 12 to 25 or more to every home garden.

In landscape planting a few of the bush cherries are very desirable as they are dwarf and bushy and so a great aid in foundation covering planting work. While the foliage itself, a beautiful silvery green, turning a rich red and gold in fall, adds a very desirable color touch to landscape planting. The profuse masses of white flowers in early spring, completely covering the bushes are a glorious sight. The fruit later is ornamental as well as useful.

Because of their dwarf bushy habit these Hansen Bush Cherries make a splendid ornamental low hedge for the front lawn as well as garden use.

Bush Cherries Are Ornamental

Plant These Hansen Bush Cherries Because:

- 1—They are easy to grow and perfectly hardy everywhere.
- 2—Are good to eat fresh, and make delicious preserves.
- 3—Bear early, heavy, and annually.
- 4—Are dwarf growing and bushy.
- 5—Are excellent for hedges or ornamental shrubs.

Apples and Plums

ANOKA—The Wonder Apple

One of Prof. N. E. Hansen's Greatest Introductions

BEARS AT TWO YEARS

HARDY — PRODUCTIVE — GOOD

Perhaps no other apple in recent times has created so much sensation or has received as much praise as this wonder apple—Anoka! It is very good to eat, hardy everywhere, and a big producer, but the big thing and best part of all is that it usually bears the second year after planting. Almost as soon as do plums. Anoka is a marvel—a masterpiece of the famous fruit breeder, Prof. N. E. Hansen, and the wonder of all hardy apples. Be sure to include some in your order for fruit trees.

The size, color, and flavor of Anoka make it a popular favorite everywhere. The fruit is good sized, red striped, and comes on early in the season. It is good eating, cooks up well and keeps better than most summer apples.

Large Size . . . 65c Each; 3 For \$1.75; 6 For \$3.25; 12 For \$6.00
Medium Size . . . 50c Each; 3 For \$1.25; 6 For \$2.25; 12 For \$4.00
Small Size . . . 35c Each; 3 For \$1.00; 6 For \$1.75; 12 For \$3.00

GOLDO APPLE—A true winter apple for the northwest originated by Prof. N. E. Hansen. Keeps in an ordinary vegetable cellar till well into March. Has the rich excellent flavor of Grimes Golden but is larger in size. Goldo has the hardiness of its mother parent the Russian Duchess. It is a very vigorous grower and bears very young.

DOLGO CRAB—Another of Prof. N. E. Hansen's famous fruit introductions. Absolutely hardy everywhere, and growing more popular every year. Fruit good size, brilliant red and very juicy, for eating, for jelly or cider. Tree is free from blight and very vigorous. Commences bearing big crops when very young.

RED FLESH CRAB—Prof. N. E. Hansen's newest crab introduction that has both red skin and flesh, giving a delightful coloring to sauce and preserves. Fruit is of good size and very good eating. Flowers red. Prices for Goldo, Dolgo, and Red Flesh—Large Size, 60c Each; 3 For \$1.65; 6 For \$3.00. Medium Size, 45c Each; 3 For \$1.15; 6 For \$2.00. Small Size, 30c Each; 3 For 85c; 6 For \$1.50.

WEALTHY APPLE—A long time favorite with all good fruit men. A good eating and cooking, early fall and winter apple. Has a bright red skin and an extra fine sweet flesh.

DUCHESS APPLE—The standard summer cooking apple for the northwest. Bears heavily and annually. Hardy everywhere and very disease resistant.

Prices For Wealthy, Duchess, Whitney, and Patten's Creening
Large —1 to 6 Feet . . . Each 40c; 3 For \$1.15; 6 For \$2.00; 12 For \$3.50
Medium—3 to 5 Feet . . . Each 35c; 3 For \$1.00; 6 For \$1.75; 12 For \$3.00
Small —2 to 4 Feet . . . Each 25c; 3 For \$.65; 6 For \$1.25; 12 For \$2.00

OKA CHERRY

The Best of Them All!

The best and sweetest of all of Prof. N. E. Hansen's cherry hybrid fruit introductions. This new cherry has developed a wonderful demand and become extremely popular almost over night. Its wonderful superb sweetness and beautiful intense dark, wine-red flesh make a combination that can't be beat. The fruit is large size and often comes in clusters of two and three.

Oka Cherries Are Large And Very Delicious

The size and shape of the tree is one outstanding feature of Oka Cherry in that it grows in a dwarf, bushy form which makes it easy to harvest the fruit. Thus it puts its strength into fruit production and not into surplus tree growth. Especially handy for the small back-yard garden as it will not take up much room.

Oka Cherry bears the year after planting and annually thereafter. It is hardy throughout the northwest prairies. Oka Cherry has a wonderful possibility as a commercial cherry for once anyone has tried it they will demand more. Large; Each, 60c; 3 For \$1.65; 6 For \$3.00; Medium; Each, 50c; 3 For \$1.35; 6 For \$2.50. Small; Each 40c; 3 For \$1.15; 6 For \$2.00.

SPECIAL! Selected Extra Large Specimen Trees of Oka, Ready to Bear This Year: Each \$1.25; 3, \$3.50.

Dolgo Is Real Productive

WHITNEY CRAB—Perhaps the most popular eating crab grown. A good annual producer. Real hardy. Should be in every good fruit orchard.

PATTEN'S GREENING—One of the best winter apples known that is hardy throughout the northwest. Very choice eating and abundantly productive.

Oka Cherries Bear When Very Young

Waneta Plum

THE GIANT OF HARDY PLUMS

Up to two inches in diameter. Highly flavored. Richly colored red skin. Considered by many the best and most popular of the Hansen Hybrid Plums and the champion plum of the northwest.

Opata Cherry Plum

Earliest of all plums and famous everywhere for its rich, wonderfully delicious flavor. The flesh is a light green color with purplish red skin. Very productive. Hardy thruout the northwest prairies.

Sapa Cherry Plum

Usually the most productive of any of the Hansen Hybrid plums. Fruit very large. Extra fine sweet flavor with purple red flesh that makes the most beautiful sauce, jelly or jam. Bears the year after planting. Extra hardy.

Hanska Plum

The superb plum of apricot flavor and fragrance. Very hardy and productive. Many claim Hanska makes the best jam of any of the Hansen Plums. Has highly colored firm flesh and is the best keeper of them all, though superb fresh.

NEW REDUCED PRICES ON OPATA, SAPA, WANETA AND HANSKA

Large Size, 4 to 6 Ft. . . . Each, 50c; 3 For \$1.25; 6 For \$2.25; 12 For \$4.00
Medium Size, 3 to 5 Ft. . . . Each, 40c; 3 For \$1.15; 6 For \$2.00; 12 For \$3.50
Small Size, 2 to 4 Ft. . . . Each, 30c; 3 For \$.75; 6 For \$1.35; 12 For \$2.50

NEW NOVELTIES OF NOTE

TOM THUMB CHERRY—This new fruit has had a surprisingly quick leap to fame.

Nothing like it anywhere. Though but knee high can bear a bushel of fruit. Exceedingly sweet fresh. Delicious in sauce and jams. Fruit good sized. Flesh dark redish purple. Hardy far north into Canada. Large; 75c Each; 3, \$2.00; 6, \$3.50. Medium; 50c Each; 3, \$1.25; 6, \$2.00. Small; 35c Each; 3, \$1.00; 6, \$1.50.

YELLOW SWEET APPLE—A new Russian apple introduced by Prof. N. E. Hansen. It is considered by many the best of all summer eating apples. Fruit of large size, with yellowish skin. Extremely good eating. Hardy everywhere. Large; 65c Each; 3, \$1.75; 6, \$3.25. Small; 10c Each; 3, \$1.10; 6, \$2.00.

BREEDER PLUMS

TO INSURE GOOD CROPS OF FRUIT

To assure a good yield of fruit, you should plant in your orchard a few of these Hansen Select Breeder Plums which give a surplus abundance of good virile pollen to make a good setting of fruit on your plum trees. These are very hardy and have fruit of good size and flavor.

Large, Each, 40c; 3 For \$1.00; 6 For \$1.75
Medium, Each, 35c; 3 For \$.75; 6 For \$1.35
Small, Each, 25c; 3 For \$.50; 6 For \$.85

BARGAIN ASSORTMENT

PLUMS AND APPLES

Many people when ordering from us request a good assortment as experimentation has proved that mixed plum and mixed apple orchards unquestionably bear best, due to the cross pollination. So we have made up some good assortments of fruit trees which, because of quantity production, supply and demand, we are able to offer at the greatly reduced prices as shown. Be assured of good hardy varieties and of choice selection of stock.

ASSORTED PLUMS AND CHERRY HYBRIDS

Medium, 3 For \$.85; 6 For \$1.50; 12 For \$2.75
Small, 3 For \$.65; 6 For \$1.00; 12 For \$2.00

ASSORTED APPLES AND CRABS
Large, 3 For \$1.00; 6 For \$1.85; 12 For \$3.25
Medium, 3 For \$.75; 6 For \$1.35; 12 For \$2.50
Small, 3 For \$.50; 6 For \$.90; 12 For \$1.75

Waneta Plum

Siberian Flowering Almond A Beautiful Dwarf Shrub

ideal low hedge as its dwarf, bushy growth can be severely pruned which tends to make it produce an even finer foliage and more and better flowers after trimming.

Large Size . . . 50c Each; 3 For \$1.25; 6 For \$2.25; 12 For \$4.00
Medium Size . . . 35c Each; 3 For \$1.00; 6 For \$1.75; 12 For \$3.00
Small Size . . . 25c Each; 3 For \$.65; 6 For \$1.25; 12 For \$2.00

HEDGING STOCK OF SIBERIAN ALMOND—Siberian Flowering Almond is of special merit as a low hedge since it is of dwarf habit and requires little care to keep it in a compact attractive condition. And its price makes it the cheapest low hedge you can buy.

Hedging Stock, Large Size . . . 10 For 75c; 25 For \$1.50; 100 For \$5.00
Hedging Stock, Medium Light . . . 10 For 50c; 25 For \$1.00; 100 For \$3.50

Cistena Purple Leaf Shrub

For Beauty of Color. Shrubs with different colored foliage are very desirable. Cistena is in great demand for its rich dark maroon purple foliage and bark and gives a splendid touch of color in any landscape planting. Large Bushy Shrubs; \$1.00 Each; 3 For \$2.50; 6 For \$1.50. Small Shrubs: 65c Each; 3 For \$1.75; 6 For \$3.00.

Spirea Van Houtte

The most popular of the spring blooming shrubs. A wonderful wealth of fine white flowers in early spring which are ideal in shrub planting, and make a beautiful flowering hedge. Hardy everywhere and at present the most widely planted ornamental shrub.

SPirea ANTHONY WATERER—A dwarf Red Flowering, summer blooming Spirea, very fine for border work and low hedges. Blooms almost continuously from Mid-June till frost, with flowers in bouquet clusters and somewhat fragrant.

—Prices For Heavy Bushy Spirea V. H. Large Size . . . 60c Each; 3 For \$1.50; 6 For \$2.75; 12 For \$5.00
Medium Size . . . 40c Each; 3 For \$1.00; 6 For \$1.75; 12 For \$3.00
Small Size . . . 25c Each; 3 For \$.65; 6 For \$1.25; 12 For \$2.00
Hedging Stock . . . 10 For \$1.50; 25 For \$2.75; 100 For \$10.00

Siberian Flowering Crab

HOPA RED FLOWERING CRAB—Rich, large, red flowers in early spring. A most beautiful sight when in full bloom. Leaves slightly red. Hardy far north into Canada. 3-5 Ft. Trees: \$1.00 Each; 3 For \$2.50. 2-4 Ft. Trees: 75c Each; 3 For \$2.00.

Lawn Trees and Hedges

CHINESE ELM—The Fastest Growing Permanent Tree Known

IN BIG DEMAND EVERYWHERE. This remarkable elm for street and lawn is fast becoming the leading elm thruout America. It grows faster, is more drought resistant, longer lived, grows larger, and is harder than any other shade tree grown. It is much finer than the ordinary Elm. The foliage is finer and feathier, a brighter green, and very dense, and the branches make almost right angles with the trunk instead of being in spray-form like the Common Elm.

3-4 Ft. Trees . . . 35c Each; 5 For \$1.50; 10 For \$2.75; 25 For \$6.00
4-6 Ft. Trees . . . 50c Each; 5 For \$2.00; 10 For \$3.50; 25 For \$8.00
5-7 Ft. Trees: 85c Each; 5 For \$3.50; 10 For \$6.50; 25 For \$12.50; 50 For \$25.00

Niobe Weeping Willow

Red Silver Crab

The Newest Plant Wonder

It is a rich maroon red from top to bottom, in bark, in branch, and in leaf. The somewhat cut-leaf foliage has in addition a silvery touch underneath, making a remarkable combination thruout the season. The most marvelous introduction of its kind. Hardy into Canada. Stock very limited. Large Trees \$1.75 Each. Small Trees, \$1 Each.

Choice Black Hills Spruce

The stern, steadfast, lasting beauty of the Black Hills Spruce is really not found in any other tree. They are beautiful thruout the year and give continuous and lasting enjoyment. Hardy everywhere and so it is perfectly hardy far north into Canada. Last beyond a life-time.

Prices For Balled and Burlapped, Choice Specimen Stock
12-18 Inch . . . \$1.50 Each; 3 For \$4.00; 5 For \$6.50; 10 For \$10.00
18-24 Inch . . . \$2.00 Each; 3 For \$5.00; 5 For \$8.00; 10 For \$12.50
2-3 Feet . . . \$2.50 Each; 3 For \$6.50; 5 For \$10.00; 10 For \$15.00

Seedlings For Windbreaks
6-9 Inch . . . 10 For \$1.00; 25 For \$2.00; 100 For \$6.50
9-15 Inch . . . 10 For \$1.75; 25 For \$3.50; 100 For \$10.00

Ornamentals

SNOWBALL—A most showy shrub which is covered in early spring with clusters of large flowers resembling balls of snow.

MOCK ORANGE—A delightfully fragrant flowering shrub, which blooms after the lilac and Spirea V. H. Tall growing.

HYDRANGEA P. G.—Has enormous white panicles of flower clusters which blossom in late June and July.

LILAC—Common or Persian—The favorite old standby for its large and very fragrant blossoms. Common Lilac grows taller and more bushy, though the Persian Lilac does not sucker.

ELDER—Golden Elder or Cut Leaf Elder—Do especially well in the shade. The Golden Elder has beautiful golden foliage all summer, and the Cut Leaf has fern-like foliage.

JAPANESE BARBERRY—A dwarf shrub, with pretty foliage, which has small yellow blossoms, followed by red berries. Fine in border work and low hedge.

PRICES FOR ABOVE LISTED SHRUBS: Small Size: Each 25c; Three, \$1.00; Twelve, \$3.50. Large Size: Each 60c; 3, \$1.75; 12, \$6.00; Hedging Stock: \$2.50 per 10; \$1 per 25; \$14 per 100.

HARDY OUTDOOR FERNS
The best for low shady places and to fill in the blank spaces in shrub planting. We have a number of varieties, all hardy and northern grown. Each 50c; 3, \$1.00; 6, \$1.75; 12, \$3.00.

ENGELMANN IVY
The hardest of the climbing vines. Clings by means of sudopads to a sheer wall without the aid of lattice work. Large Heavy Roots: 50c Each; 3 For \$1.25. Small: 25c Each; 3 For 65c.

JACKMANI CLEMATIS—Beautiful masses of purple flowers all summer. Ea. 85c; 3, \$2.25.

HARDY ROSES

To many there is no flower in the garden lovelier than a rose, yet, contrary to the opinion of many, they are easy to grow and their culture can be successful if the proper simple care and attention is given them. We sell only the hardiest sorts. All double kinds. Prices—By Color—Red, Pink, White, or Yellow; Each, 40c; 3 For \$1.00; 6 For \$1.75.

SPECIAL ASSORTMENT: 3 Assorted Of Our Selection, 75c. **CLIMBING ROSES**—Red, Pink or White, 65c Each; 3, \$1.50. **HANSEN SIBERIAN ROSE**—The plant is covered with beautiful blooms all summer long. The hardy rose for prairie homes. Large 2 to 3 yr. plants, 25c Each; 6 For \$1.00.

MINA LINDELL ROSE—The largest, hardest, doubtless, prettiest wild rose ever discovered. Dark pink. Native of Butte County, S. Dak. Each 60c; 3 For \$1.50.

HANSA ROSE—The hardest Red Rose known. Each 50c; 3 For \$1.25.

TETONKAHA ROSE—Introduced by Prof. N. E. Hansen. A very choice flower and free bloomer. Flowers three inches in diameter, upwards to twenty-five or more petals. Hardy far north. Each 75c; 3 For \$2.00; 6 For \$3.50.

HEDGE ROSES

THE MOST BEAUTIFUL OF ALL HEDGES

For something new and distinctive in hedging, try the hardy Siberian bush roses. They make a fine dense hedge, are absolutely hardy and are a rare treat in a flowering hedge. Blooming abundantly all during June, and more or less all summer long. Plant in hedge formation 5 to 12 inches apart. Prices for Large, Strong, Healthy Plants.

18 to 24 In. . . . Each, 15c; 10, \$1.25; 25, \$2.50; 50, \$4.00; 100, \$7.50
2 to 3 Ft. . . . Each, 25c; 10, \$1.75; 25, \$3.50; 50, \$6.50; 100, \$12.50

A Trimmed Hedge to Surround the Lawn
Caragana—Siberian Pea Tree

By far the hardest and best windbreak and hedge plant for the most exposed prairies, and one which will endure severe drouth. Has fine feathery, beautiful green foliage, which grows very dense from the ground up. It has an abundance of bright-yellow blooms early in spring. According to how trimmed it forms a splendid dense hedge from a low height to a tall windbreak snow fence.

Size
9 to 15 Inches . . . Per 10 . . . \$1.25
1 to 2 Feet 75 . . . 1.75
2 to 3 Feet 1.00 . . . 2.25

Siberian Bush Honey-suckle

A fine tall hedge plant which is of added value because of its pretty pink and white flowers in early spring followed by masses of bright red and orange fruit that are of great attraction to the birds. A fine specimen plant for both lawn and group planting.

Size
9 to 15 Inches . . . \$1.00
1 to 2 Feet 75 . . . 1.50
2 to 3 Feet 1.25 . . . 2.50

Extra Large Specimen Plants, 35c Each; 3 For 75c.

Prof. N. E. Hansen and A May Day Tree

Carl A. Hansen Nursery

Hardy Plants for the Northwest

Brookings, South Dakota

TERMS

Cash with order. No packing charges. Remittance may be made the most convenient way. All shipments F.O.B. here and are sent forward the cheapest and quickest way unless otherwise directed.

The most welcome sure producer of the garden. A vigorous grower with rich red stems of fine quality. Large Roots: 3 For 35c; 10 For \$1.00.

Washington Rust-Proof Asparagus

The earliest and best green of the garden. Contains those proper vitamins one needs to remain in good health. Fine, large succulent stalks can be cut from early spring till late fall if the bed is properly mulched and cared for. Heavy, Large, 2-Year Roots, 25 For 70c; 100 roots, \$1.65; 250 roots, \$3.25; 1,000 roots, \$11.50.

Hardy Grapes For Everyone

The culture of grapes is a rapidly growing enterprise in the northwest, not only for the home garden but for market as well. This widespread growing approval of grapes is well merited and a continuous further extension is very desirable. Their care and culture is easy and when hardy varieties like the Hansen Grapes or Beta is selected, the results are assured.

BETA GRAPE—The best known and hardest of the popular grapes. Producing amazingly large crops of fine large fruit which are good eating and make excellent preserves, splendid jelly and tasty grape juice. Prices: 20c Each; 5 Vines, 85c; 10 Vines, \$1.50; 25 Vines, \$3.00; 100 Vines, \$10.00.

THE NEW HANSEN GRAPES—Originated and introduced but a few years ago by Prof. N. E. Hansen, the plant wizard of South Dakota State College. They are all hardy generally thruout the northwest. All are fine eating fresh or as the many delicacies to be made from them. But the quality is of first importance as many are of as choice flavor as Concord though their size is as yet somewhat smaller.

Due to the great demand we have not yet caught up on production but offer them only in assortments of the best selection of our choice. Large, 3-Year, 75c Each; 3 For \$1.75; 6 For \$3.00. 2-Year, 50c Each; 3 For \$1.00; 6 For \$1.75.

STRAWBERRIES

PROGRESSIVE EVERBEARING—The very best all around of the everbearing varieties. A good producer of fine large berries of excellent quality from early spring till late fall. Prices: 25 Plants, 75c; 50 Plants, \$1.25; 100 Plants, \$2.00; 500 Plants, \$8.50; 1,000 Plants, \$15.00.

SENATOR DUNLAP—The favorite and largest and best of the June bearing strawberries. Very hardy and gives a wonderful yield of large juicy berries. Price: 25 Plants, 50c; 100 Plants, \$1.25; 500 Plants, \$5.00; 1,000 Plants, \$8.50.

MASTODON EVERBEARING—The Biggest and Best of the recently introduced strawberries. A tremendous bearer and very sweet. A splendid berry for market because of its enormous size and good keeping qualities. Prices: 25 Plants, \$1; 50 Plants, \$1.50; 100 Plants, \$2.75.

LATHAM RASPBERRY—Tremendously popular everywhere. Very large, bright red berries of fine quality. Considered the best raspberry for marketing as it retains its shape and firmness splendidly under market conditions and bears freely thruout the season.

Prices: 10 Plants, 75c; 25 Plants, \$1.25; 100 Plants, \$3.50.

Three Year Anoka Tree Bearing A Crop Of Fruit

EXTRA SPECIAL OFFER

Large 3 yr. Anoka Trees, Ready to Bear This Year: \$1.25 Each; 3 Trees \$3.50; 6 Trees \$6.00.

A REAL VALUE!

CARL A. HANSEN NURSERY

BROOKINGS, S. DAK.

Dear Friend:

We send you ~~here~~ with a Special Spring Sale Catalog of hardy plants and seeds, and we hope you will find in it a number of items you are planning to buy this spring.

In checking over our files we find that you have not yet favored us with an order and we got to wondering what we could do to get better acquainted with you and have you as one of our good friends and customers. We have thought the matter over many times and have been trying to figure out just how to do it. We have done all we could think of to help the matter along,-----

We have reduced prices beyond good sense.

We have ready the best assortment of stock we've ever had.

We are better equipped to handle your orders with greater care in packing, and quicker delivery than ever before.

We would be very glad to help you in the proper selection of stock for your particular conditions.

We are ready to help in any other way possible to facilitate service to you, and to give you the best stock obtainable at the lowest possible prices.

BUT, above all, we'd like to hear from YOU! Just a letter and a small order if nothing more. Or if for some reason you feel it will be impossible for you to order this spring please hand this catalog to some neighbor who is planning to buy material this spring. We'll surely appreciate it and,-- Thank You! However, we'd like to hear from you first.

We'd like to know you better and we'd like to have you know us better. Let's start the thing going now by letting us supply your planting needs this spring.

BE ASSURED OF REAL SERVICE! AND REAL VALUE FOR YOUR MONEY!

Use the below Gift Coupon on this get-acquainted-order, --it assures you of the best we have, at far below the run of prices.

G I F T C O U P O N

Good For 25¢ (Twenty Five Cents) In Trade
On Any Order Of \$2.00 (Two Dollars) Or More
If received with your order on or before Apr. 15, '32.

Hardy Field Seeds for the Northwest

COSSACK ALFALFA—The Greatest of Them All!

Prof. N. E. Hansen's Wonder Plant

This variety of alfalfa is well known to all. It is perhaps the greatest of forage plants, and every farm should have a pasture and hayland of it. There are a number of alfalfas grown, but Cossack is the marvel of them all in hardiness and forage production.

It is absolutely hardy on the most exposed prairie, and does well and produces an abundance of forage and seed in the driest years. It will outyield other varieties of alfalfa and is harder than any of them. Prof. N. E. Hansen, the plant wizard, introduced this alfalfa from Siberia, in an eight inch rainfall country which often gets 60 degrees below zero in the winter with little or no snow.

He has added millions of dollars of value to the farms of the northwest by this one kind of alfalfa—Cossack. Extensive planting of this king of the alfalfas will pay you big dividends in return. As there is a ready market for the seed at a good price and the surplus hay you have can easily be sold at top prices.

Plant 8 to 12 pounds to the acre for a solid field of alfalfa or less per acre according to the percentage you want in a mixed pasture.

Top Grade Seed—10 lbs. \$3.50; 25 lbs. \$8.50; 100 lbs. \$30.00; 150 lbs., One Full Sack, \$42.50

GRIMM ALFALFA

A very popular and good general purpose alfalfa. Hardy and an abundant producer of fine large crops of succulent stems and foliage. A great hay and pasture alfalfa and a heavy seed producer. As a money maker per acre, with hay or seed Grimm is a real big paying investment.

Top Grade Seed—10 lbs. \$3.00; 25 lbs. \$6.50; 100 lbs. \$25.00; 150 lbs. \$35.00

DAK. NO. 12 ALFALFA

A good hay crop alfalfa. Generally hardy thruout the northwest. Very popular for use in seeding mixed pastures and hay lands.

Top Grade Seed—10 lbs. \$2.50; 25 lbs. \$5.50; 100 lbs. \$20.00; 150 lbs. \$27.50

SECOND GRADE ALFALFA SEED

Though free from noxious weeds and of high germination, some minor defect keeps us from putting it in with our best grade seed.

PRICES for Cossack, Grimm, and Dak. 12: \$5.00 per 100 lbs. LESS Than Top Grade Seed.

BARGAIN ALL ALFALFA MIXTURE—That Is A Real Alfalfa Buy!

A Genuine Value At A Real Low Price

This is a mixture of about even proportions of Cossack, Grimm, and Dakota 12 Alfalfas. It gives the combined merits of all of them, and is a wonderful combination to use in a hay meadow or mixed pasture.

It is made up from our small odds and ends of seeds which are not large enough to be offered separately or which for some minor defect can't be sold as top or select grade seed. The seed is of choice quality and alright in every way for general seeding purposes. It is free from noxious weeds, though it may have considerable discolored seed in it, but it will give you good results. It really gives you more seed value per dollar than any other seed and is a money saving, money making investment for seeding in your hay land or pasture.

10 lbs. \$1.75; 25 lbs. \$4.00; 50 lbs. \$7.50; 100 lbs. \$12.50; 150 lbs. \$17.50

Dr. N. E. Hansen And A Single Cossack Alfalfa Plant

Dr. N. E. Hansen And Another Single Plant Of The Alfalfa He Introduced From Siberia

SEED CORN

Picked Early—Properly Dried
Shelled and Graded—High Germination

AN UNPARALLELED SEED CORN SITUATION

Not for many years has the seed corn situation been in such a drastic state as it is this year. Due to the extreme drought last year and much wide-spread Grasshopper damage, very little corn ripened properly. Consequently GOOD Seed Corn is extremely scarce.

We realized this situation early last fall and at once set out to find good seed that was filled out and properly ripened. By diligent work and effort we finally located a number of fine fields of good seed. This in addition to our own raised supply, which, by the way, was very small this year, has totaled up to a fair supply of real good seed.

Because of conditions there has been, and will be enumerable more "peddlers" of seed corn on trucks, etc. this year. But whether or not you buy from us, let us warn you to be sure that what ever seed you buy, is from some reliable party, who is getting it from a reliable source that is growing seed which is adapted to your climatic conditions and not from someone who perhaps has a very low price on his "Seed Corn"—feed corn, and all he wants is your money and doesn't care if you get a crop or not.

To assure yourself of your needs it would be advisable to order your supply from us as early as possible.

MINNESOTA NO. 13—The most popular generally of the yellow dent corns in the Northwest. Kernels are dark yellow, medium depth and the cob is red. The seed corn listed here was grown around Brookings, and north of here.

½ Bu. \$1.25; 1 Bu. \$2.00; 5 Bu. Or More \$1.75 Per Bu.

HANSEN PROSO—The Salvation Grain!

The Best Catch Crop For The Northwest—Matures In 60 Days
Can Be Planted Later And Will Stand More Dry Weather Than Any Other Grain

Hansen Proso was introduced along with many other varieties of Proso from Siberia by Prof. N. E. Hansen. It was then selected for white seed, large kernels, and the greatest productiveness.

It is extremely valuable as a catch crop even for the north, as it will mature in 60 days and may be sown after other crops are planted even after they show signs of failure. Though it does best when sown in June, it may be sown in July and still mature a good crop of grain. It may even be sown after removing an early crop of oats or barley and thus raise two crops off from the same ground in one year. It often yields 300 to 500 fold of good clean grain, weighing 60 to 64 pounds per bushel.

The seed is round and several times the size of ordinary millet. It grows in a sprangley head, resembling oats. The color of the inner kernel of grain is white. Hansen Proso is suitable for feeding whole or ground. It is very valuable as a fattening grain for hogs as well as a good general feed for cattle, horses, and chickens. Chickens prefer it to corn or wheat.

Many farmers claim that Hansen Proso will put on a quicker and solidier fat than will corn. The U. S. Dept. of Agriculture in their Proso Bulletin give many valuable statistics in this regard.

We do not advise using it excluding all corn. But we do say that if you will sow about two-thirds the corn that you usually do and sow that extra acreage to Hansen Proso that the increased value of feed will make you a good increase in profit. And right now with the scarcity of seed, there is a demand worth considering in seed grain.

When hulled and ground Proso may be used as a breakfast cereal, similar to wheat or rice, or as a flour in breads and other pastry. Sow 15 to 25 pounds to the acre.

A Harvested Crop of Hansen Proso That Went Over 40 Bu. Per Acre

FULTONS YELLOW DENT—Large, deep, bright yellow kernels. Ideal heavy yielder. Stock offered grown near Mitchell, S. Dak.

½ Bu. \$1.25; 1 Bu. \$2.25; 5 Bu. Or More \$2.00 Per Bu.

NORTHERN YELLOW FLINT-DENT—Open field crosses between the Northern Yellow Dent and Flint Corns. Kernels about as large, somewhat like in shape, and about as soft as MINNESOTA No. 13. Yellow Dent. A good yielder. Very early to mature. Grasshoppers do not seem to bother this corn as they do others. Seed offered grown in northern part of the state.

½ Bu. \$1.00; 1 Bu. \$1.75; 5 Bu. Or Over \$1.50 Per Bu.

HANSEN YELLOW DENT—This is a variety of corn of our own, on years. It is somewhat similar to Minnesota 13, or Early Murdock, but will out-yield either of them, and is earlier to mature. The ears are large and high off the ground. Kernels are large, deep and well dent.

1 Lb. 25c; 10 Lbs. 50c; 25 Lbs. \$1.00; 1 Bu. \$3.00; 5 Bu. Or Over \$2.50 Per Bu.

LAWN SEED—A good mixed lawn seed is the best for the establishment of a good permanent lawn. Our seed is an especially prepared mixture of kinds of grass to insure a good quick-showing—yet lasting lawn. 25 lbs. will properly cover the average lot, and should be sown early in spring, on a well pulverized soil, using most of the seed and saving some to sow on later in the summer and fall in the spots where it did not catch at first. Be sure to sow on a still day, preferably just before a rain.

1 Lb. 40c; 5 Lbs. \$1.75; 10 Lbs. \$3.00; 25 Lbs. \$6.75; 100 Lbs. \$27.50

One Bundle Of Proso Grown in Western S. Dak.

NEW REDUCED PRICES

10 lbs. \$1.00; 25 lbs. \$1.50; 100 lbs. \$4.00; 250 lbs. \$8.50; 500 lbs. \$16.00

HANSEN SIBERIAN SWEET CLOVER

Often Called Arctic Sweet Clover in Canada

This remarkable Sweet Clover was introduced from the dry Semipalatinsk region of Siberia by Prof. N. E. Hansen. It is very tall growing clover and will make an astounding growth in one year, often reaching a height of 6 to 8 feet in one season. Has very succulent stems and may be cut two or three times during the season without danger of harming its growth the next season if the last cutting is not done too late.

Altho a more rank grower than our common sweet clover it has a somewhat finer stem and leaf and really makes better hay. It is much harder than the common sweet clover and will withstand our coldest winters and driest summers, as it comes from one of the driest and coldest parts of Siberia.

Get a good start now in this as there is a growing demand for the seed at a good profit.

1 lb. 25c; 5 lbs. \$1.25; 10 lbs. \$2.00; 25 lbs. \$3.50; 100 lbs. \$10.00
